Every year, WineWorks holds a Sweepstake for guessing the number of tons harvested in the coming vintage. This year we saw a record number of entrants, who were keen to predict just how much more we would harvest than last year's record 457,000 tons. This year the Doom and Gloom merchants were on the right side of the betting ledger, witht eh vintage dropping 19% to **370,000 tons**! The red circle shows those who were in the zone, and even though no-one guessed exactly 370,000, the two closest were Philip Gregan (the head of NZ WineGrowers - wtf?) and Liarnn, our Auckland planner. 2 x crisp $100 notes will be presenbted to these two geniuses shortly.
